E·PARTNERS

CAPABILITIES STATEMENT

E-Partners is a leading creator of New Economy business, providing Internet strategy consulting, sophisticated end-to-end solutions, and launch support for Global 1000, as well as start-up companies.

OUR SERVICES

E-Partners is a professional global services company whose vision is to provide the best technology solutions via the delivery model that best suits each client, be it onsite, offsite or offshore services. E-Partners has a company 'team' mentality; the team is well versed in many languages and has worked in diverse cultural and linguistic settings.

E-Partners currently offers a wide range of services including competitive e-business strategy development, strategic e-business initiative design, staff augmentation, services outsourcing, personnel training, custom application development, platform migration, joint product development, implementation and customization of third-party applications, third-party testing of applications and software support.

The Internet based E-Commerce solutions offered are structured around content, transaction, integration and security. The current focus areas are content management, workflow management, user experience and mobile commerce applications.

Strategic outsourcing offers the dynamic delivery of external business and information technology resources and services to ensure the achievement of your business objectives. Whether it's new development, ongoing maintenance and support, or conversion of legacy systems, E-Partners offers the contracting services your company needs.

We offer the flexibility of several types of service agreements, including fixed-price, time-bound contracts, as well as those that are based on deployed resources and are billed on a man-month basis. Whether you have well-defined specifications and a high-level project plan, or an open-ended plan that will require changes along the way, E-Partners is here to meet each requirement with the same expertise and professionalism.

DOING BUSINESS WITH AN "E"

E-Partners can transform your organization at every level with its excellent track record of executing even the most complex of projects on time and under budget. With a strict adherence to the highest quality, each component of the design and development process can be tailored to suit your precise requirements and individual circumstances.

E-business is a vital aspect of today's global, electronic marketplace. Competing successfully demands careful planning, prudent decision-making, and expert assistance. E-Partners provides business consultants with the expertise required to help your business stake a claim in the e-business world - safely, quickly and profitably. E-Partners offers a flexible, affordable way to begin doing business with an "E".

TRANSFORMING YOUR BUSINESS

A global provider of services to customers in a broad spectrum of industries, E-Partners has the experience, knowledge and innovative approach needed to give your business the competitive advantage it needs to succeed.
